PROFESSIONAL SUMMARY

Junior Computer Engineering student at Kocaeli University with a **high-honor 3.51 GPA**, consistently ranking **1st in the department** in multiple semesters. Focused on leveraging **Artificial Intelligence** and **Data Science** to build personalized user experiences. Proactive developer with a strong foundation in **full-stack development** and a sharp focus on algorithmic efficiency and software architecture.

TECHNICAL SKILLS

- **Programming:** Python, Java, JavaScript (ES6+), TypeScript, C/C++, Assembly (8086).
- **Web & Backend:** React.js, Next.js, Node.js, Django, RESTful APIs, Firebase.
- **Data Science & AI:** ML Algorithms, Deep Learning, NLP, Scikit-learn, Pandas, NumPy, Matplotlib, SPSS.
- **Databases:** PostgreSQL, MongoDB, MySQL, Redis.
- **Core Engineering:** Data Structures & Algorithms, Operating Systems (Sync, Mutex), Cryptography, OOP.
- **Tools & DevOps:** Git/GitHub, Docker, Linux/Bash, Postman, Agile/Scrum.

EXPERIENCE

Undergraduate Research Assistant | Kocaeli University AI Lab *Sept 2025 – Present*

- Developing an AI model to track **Cushing's Disease** progression in collaboration with faculty.
- Utilizing **Python (Scikit-learn, Pandas)** for medical data preprocessing and predictive modeling.
- Enhancing clinical decision-making accuracy through advanced machine learning algorithms.

PROJECTS

- **Full-Stack Web Development:** Developed a **Social Library Platform** and a **QR Menu System** using **React.js, Node.js, and Django**. Integrated Google Books & TMDb APIs, implemented **RESTful architectures**, and built dynamic admin panels for real-time data management.
- **AI & Optimization Algorithms:** Engineered a **Logistics & Route Optimization System** in Python. Applied advanced algorithms (**Dijkstra, VRP**) to minimize fuel costs and delivery times, featuring a data visualization dashboard for station management.
- **Database Systems & Design:** Experienced in architecting and **normalizing** complex relational databases using **PostgreSQL, MySQL, and MongoDB**. Developed a **Diabetes Tracking System** focused on data integrity and high-performance SQL querying.

EDUCATION

Kocaeli University | Bachelor of Science in Computer Engineering *Expected Graduation: June 2027*

- **GPA: 3.51 / 4.00** (High Honor Student)
- **Achievements:** Consistently ranked **1st in the department** for multiple semesters due to academic excellence.
- **Relevant Coursework:** Data Structures & Algorithms, Operating Systems, Machine Learning, Database Management, Software Engineering.

LANGUAGES

- **English:** B2 (Upper-Intermediate) – Technical & Academic Proficiency, **Turkish:** Native
